

To whom it may concern,

I'm Yong Shin Kim. I've been in Haiti for 11 years working as missionary and I have been working for a school "Ecole S&H" for 3 years. This is Elementary and Secondary school from kinder to 10th grades having 550 students.

These pictures are the scenes of school S&H. This school has been running by support of a company named "Sae-A", near this school, making knit wear, run by Koreans.

As a teachers' advisor, I teach English for teachers and teach violin and cello for students.

The principle of this school is an American and now he is in New York because of the lockdown due to Corona Virus. His name is Jean Mirvil and this is his phone number : [917-597-4516](tel:917-597-4516). You can call him to hear what I'm doing.

And I've been supporting one elementary school in mountain village for 5 years having around 300 students.

The next scenes are one church I supported to build and the elementary school attached to the church in that area.

I'll use the money for relief fund. Due to Covit 19, many Haitians around me are starving from the closed border, through which eating stuffs used to be imported. And some of the money will use for the mountain school's running.

Thank you.

Mr. Mirvil, tallest in the middle and I in my adopted son's wedding day.

May 1st 2020
